

Release note for Server Imaging Utility March 2017 U1

Notes

BTBackup (now moved into the Server Manager) will now backup the BlackTrax folder in btuser instead of the documents folder. This means that the backup server needs a shared BlackTrax folder in order for the Server Manager to register it. This folder is shared by default in this image.

Included BlackTrax Release:

v2.1.3

Dongle Date Requirement:

July 26th 2016

Major changes:

- Updated to v2.1.3

Known issues:

- Motive may freeze the first time it's launched

Features and Fixes:

Bug

- *Fixed: Disable Main and Backup buttons once an option is selected during setup to prevent duplicate selection*
- *Fixed: Startup animation icons are no longer out of focus at the beginning*
